Lords of Summer

Lucid, lyrical and intellectually profound: this collection of poems resonates with real life and death, but mostly what falls in between: the charmed darkness. Several ghosts haunt Learning to Sleep, John Burnside's first collection of poetry in four years - from the author's mother, commemorated in an exquisitely charged variant on the pastoral elegy, to the poet Arthur Rimbaud, who wanders an implausible Lincolnshire landscape looking for some sign of belonging. Throughout the book, the powers and dominions of a lost pagan ancestry emerge unexpectedly through the gaps in contemporary life:

half-seen and fleeting, but profoundly present. Behind it all, the figure of Hypnos, the Greek god of sleep, marks Burnside's own attempts to come to terms with the severe sleep disorder from which he has suffered for years, a condition that culminated in the recent near-death experience that informs the latter part of the book. Add to this a series of provocative meditations on the ways in which we are all harmed by institutions, from organised religion, or marriage, to the tawdry concepts of gender and romantic love that subtly govern our personal lives, and *Learning to Sleep* reveals Burnside at his most elegiac, while still retaining a radical pagan's sense of celebration and cultural independence. 'For my money, John Burnside is by far the best British poet alive... I read it over and over again, marvelling at its concision and beauty.'

A Crossover Chronicle for all the Chornicles of Darkness lines

Denizens of the Dreaming

The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves. They

must keep walking. Winner of the Pulitzer Prize for Fiction, *The Road* is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, *The Road* is a true modern classic, a masterful, moving and increasingly prescient novel. This edition is part of the Picador Collection, a series of the best in contemporary literature, inaugurated in Picador's 50th Anniversary year.

Dancers in the Dusk

In *"The Stain"* Rikki Ducornet tells the story of a young girl named Charlotte, branded with a furry birthmark in the shape of a dancing hare, regarded as the mark of Satan. *"Sadistic nuns, scatology, butchered animals, monkish rapists, and Satan"* (Kirkus), as well as the village exorcist, inhabit this bawdy tale of perversion, power, possession, and the rape of innocence. Ducornet weaves an intricate design of fantasy and reality, at once surreal, hilarious, and terrifying.

Monsters in the Movies

Shadows on the Hill

From Galileo to today's amateur astronomers, scientists have been rebels, writes Freeman Dyson. Like artists and poets, they are free spirits who resist the restrictions their cultures impose on them. In their pursuit of nature's truths, they are guided as much by imagination as by reason, and their greatest theories have the uniqueness and beauty of great works of art. Dyson argues that the best way to understand science is by understanding those who practice it. He tells stories of scientists at work, ranging from Isaac Newton's absorption in physics, alchemy, theology, and politics, to Ernest Rutherford's discovery of the structure of the atom, to Albert Einstein's stubborn hostility to the idea of black holes. His descriptions of brilliant physicists like Edward Teller and Richard Feynman are enlivened by his own reminiscences of them. He looks with a skeptical eye at fashionable scientific fads and fantasies, and speculates on the future of climate prediction, genetic engineering, the colonization of space, and the possibility that paranormal phenomena may exist yet not be scientifically verifiable. Dyson also looks beyond particular scientific questions to reflect on broader philosophical issues, such as the limits of reductionism, the morality of strategic bombing and nuclear weapons, the preservation of the environment, and the relationship between science and religion. These essays, by a distinguished physicist who is also a prolific writer, offer informed insights into the history of science and fresh perspectives on contentious current debates about science, ethics, and faith.

Shaded Vision

Longlisted for the 2019 Booker Prize An entrancing new novel by the author of the prizewinning *Grief Is the Thing with Feathers* There's a village an hour from London. It's no different from many others today: one pub, one church, redbrick cottages, some public housing, and a few larger houses dotted about. Voices rise up, as they might anywhere, speaking of loving and needing and working and dying and walking the dogs. This village belongs to the people who live in it, to the land and to the land's past. It also belongs to Dead Papa Toothwort, a mythical figure local schoolchildren used to draw as green and leafy, choked by tendrils growing out of his mouth, who awakens after a glorious nap. He is listening to this twenty-first-century village, to its symphony of talk: drunken confessions, gossip traded on the street corner, fretful conversations in living rooms. He is listening, intently, for a mischievous, ethereal boy whose parents have recently made the village their home. Lanny. With Lanny, Max Porter extends the potent and magical space he created in *Grief Is the Thing with Feathers*. This brilliant novel will ensorcell readers with its anarchic energy, with its

bewitching tapestry of fabulism and domestic drama. Lanny is a ringing defense of creativity, spirit, and the generative forces that often seem under assault in the contemporary world, and it solidifies Porter's reputation as one of the most daring and sensitive writers of his generation.
