Sonar (sound navigation and ranging or sonic navigation and ranging) is a technique that uses sound propagation (usually underwater, as in submarine navigation) to navigate, measure distances (ranging), communicate with or detect objects on or under the surface of the water, such as other vessels.

"Sonar" can refer to one of two types of technology: passive sonar means listening for the sound made by vessels; active sonar means emitting pulses of sounds and listening for echoes. Sonar may be used as a means of acoustic location and of measurement of the echo characteristics of "targets" in the water. Acoustic location in air was used before the introduction of radar. Sonar may also be used for robot navigation, and sodar (an upward-looking in-air sonar) is used for atmospheric investigations...

Maria (given name)

Polish politician María Perceval (born 1956), Argentine politician Maria Lea Pedini-Angelini (born 1954), Captain Regent of San Marino María Pellicer

Maria is a feminine given name. It is given in many languages influenced by Christianity.

It reflects the Syro-Aramaic name Maryam, which is in turn derived from the Biblical Hebrew name Miriam. As a result of their similarity and syncretism, the Latin original name Maria and the Hebrew-derived Maria combined to form a single name.

In Germanic languages, the name's usage is connected with the Germanic element *mar meaning "famous".

The name is also sometimes used as a male...

Wikipedia:Unusual articles

article) and of decent quality, and in large meeting Wikipedia's manual of style. For unusual contributions that are of greater levity, see Wikipedia:Silly

Of the over seven million articles in the English Wikipedia there are some articles that Wikipedians have identified as being somewhat unusual. These articles are verifiable, valuable contributions to the encyclopedia, but are a bit odd, whimsical, or something one would not expect to find in Encyclopædia Britannica. We should take special care to meet the highest standards of an encyclopedia with these articles lest they make Wikipedia appear idiosyncratic. If you wish to add an article to this list, the article in question should preferably meet one or more of these criteria:

The article is something a reasonable person would not expect to find in a standard encyclopedia.

The subject is a highly unusual or ironic combination of concepts, such as cosmic latte, death from laughter, etc.
