Google Workspace

and marketed by Google. It consists of Gmail, Contacts, Calendar, Meet and Chat for communication; Drive for storage; and the Google Docs Editors suite

Google Workspace (formerly G Suite, formerly Google Apps) is a collection of cloud computing, productivity and collaboration tools, software and products developed and marketed by Google. It consists of Gmail, Contacts, Calendar, Meet and Chat for communication; Drive for storage; and the Google Docs Editors suite for content creation. An Admin Panel is provided for managing users and services. Depending on edition Google Workspace may also include the digital interactive whiteboard Jamboard and an option to purchase add-ons such as the telephony service Voice.

The education edition adds a learning platform Google Classroom and today has the name Workspace for Education. It previously included Google Currents for employee engagement.

While most of these services are individually available...

Google Desktop

and personalized news. Google offers a gallery of pre-built gadgets for download on the official website. For developers, Google offers an SDK and an official

Google Desktop was a computer program with desktop search capabilities, created by Google for Linux, Apple Mac OS X, and Microsoft Windows systems. It allowed text searches of a user's email messages, computer files, music, photos, chats, web pages viewed, and the ability to display "Google Gadgets" on the user's desktop in a sidebar.

In September 2011, Google announced it would discontinue a number of its products, including Google Desktop. The reason given was that "In the last few years, there's been a huge shift from local to cloud-based storage and computing, as well as the integration of search and gadget functionality into most modern operating systems. People now have instant access to their data, whether online or offline. As this was the goal of Google Desktop, the product will be...

Google+

social networks, linking other Google products like Google Drive, Blogger, AdSense, and YouTube. The service, Google's fourth foray into social networking

Google+ (sometimes written as Google Plus, stylized as G+ or g+) was a social network owned and operated by Google until it ceased operations in 2019. The network was launched on June 28, 2011, in an attempt to challenge other social networks, linking other Google products like Google Drive, Blogger, AdSense, and YouTube. The service, Google's fourth foray into social networking, experienced strong growth in its initial years, although usage statistics varied, depending on how the service was defined. Three Google executives oversaw the service, which underwent substantial changes that led to a redesign in November 2015.

Due to low user engagement and disclosed software design flaws that potentially allowed outside developers access to personal information of its users, the Google+ developer...

Google Play

users to browse and download applications developed with the Android software development kit and published through Google. Google Play has also served

Google Play, also known as the Google Play Store, Play Store, or sometimes the Android Store, and formerly known as the Android Market, is a digital distribution service operated and developed by Google. It serves as the official app store for certified devices running on the Android operating system and its derivatives, as well as ChromeOS, allowing users to browse and download applications developed with the Android software development kit and published through Google. Google Play has also served as a digital media store, with it offering various media for purchase (as well as certain things available free) such as books, movies, musical singles, television programs, and video games.

Content that has been purchased on Google TV and Google Play Books can be accessed on a web browser (such...

List of most-downloaded Google Play applications

million downloads on unique Android devices: These are the Google Play apps with more than ten billion downloads on unique devices: These are the Google Play

worms This list of most-downloaded Google Play Store applications includes most of the free apps that have been downloaded at least 500 million times. As of 2024, thousands of Android applications have surpassed the one-million download milestone, with a significant subset reaching even higher thresholds. For context, in July 2017 that there are 319 apps which have been downloaded at least 100 million times and 4,098 apps have been downloaded at least ten million times. The 100-million download threshold for free applications has been established to maintain the list's

manageability and focus on the most widely distributed apps. It's worth noting that many of the applications in this list are distributed pre-installed on top-selling Android devices and may be considered bloatware by some people...

Google Photos

former social network. Google Photos shares the 15 gigabytes of free storage space with other Google services, such as Google Drive and Gmail. Users can

Google Photos is a photo sharing and storage service developed by Google. It was announced in May 2015 and spun off from Google+, the company's former social network.

Google Photos shares the 15 gigabytes of free storage space with other Google services, such as Google Drive and Gmail. Users can upload their photos and videos in either quality setting, original or compressed (photos and videos up to 16 megapixels and 1080p resolution, respectively), that will count towards the free storage tier (compressed items uploaded before June 1, 2021, along with items uploaded via Pixel phones released before that date, are unlimited). Users can expand their storage through paid Google One subscriptions.

The service automatically analyzes photos, identifying various visual features and subjects. Users...

Google Buzz

will be able to view their existing content on their Google Profile and download it using Google Takeout";. He also said, "We learned a lot from products

Google Buzz was a social networking, microblogging and messaging tool developed by Google. It replaced Google Wave and was integrated into their web-based email program, Gmail. Users could share links, photos, videos, status messages and comments organized in "conversations" and visible in the user's inbox.

On October 14, 2011, Google announced that it would discontinue the service and that the existing content would be available in read-only mode. Buzz was discontinued on December 15, 2011, and superseded by Google+ (which was later discontinued on April 2, 2019).

Buzz enabled users to choose to share publicly with the world or privately to a group of friends each time they posted. Picasa, Flickr, Google Latitude, Google Reader, Google Sidewiki, YouTube, Blogger, FriendFeed, identi.ca and...

OneDrive

their photos and videos stored on SkyDrive. This entry point allowed users to add "People tags" to their photos, download photos into Windows Photo Gallery

Microsoft OneDrive is a file-hosting service operated by Microsoft. First released as SkyDrive in August 2007, it allows registered users to store, share, back-up and synchronize their files. OneDrive also works as the storage backend of the web version of Microsoft 365. OneDrive offers 5 gigabytes of storage space free of charge, with 100 GB, 1 TB, and 6 TB storage options available, either separately or with Microsoft 365 subscriptions.

The OneDrive client app adds file synchronization and cloud backup features to its device. The app comes included with Microsoft Windows, and is also currently available for macOS, Android and iOS. In addition, Microsoft 365 apps directly integrate with OneDrive.

Google Wallet

support direct provisioning can be issued within the Google Wallet app itself, without needing to download a separate third party application. Some public

Google Wallet (or simply Wallet) is a digital wallet platform developed by Google. It is available for the Android, Wear OS, and Fitbit OS operating systems, and was announced on May 11, 2022, at the 2022 Google I/O keynote. It began rolling out on Android smartphones on July 18, 2022.

Google Health

Google Health was the name given to a 2008–2012 version of a service, which allowed Google users to volunteer their health records—either manually or

Google Health encompasses the health and wellbeing initiatives of Google, including Fitbit and a range of other features and integrations. Google Health started in 2008 as an attempt to create a repository of personal health information in order to connect doctors, hospitals and pharmacies directly. The Google Health project was discontinued in 2012, but the Google Health portfolio re-established in 2018 before being redescribed in 2022 as an "effort" rather than a distinct division.

As of 2024, Google Health describes a range of features across other Google products, as well as the Google Cloud Studio integration for third-party electronic health records, such as MEDITECH Expanse.
